The substantial work completion date was October 2018 and final work completion date April 2019. He stated before the project got off the ground, there were some issues with the wetlands permit. Resolving the issue cost the project 150 days. Mr. Maletti stated before any of the rehabilitation could be done to I-85, there was a two mile section of pavement which needed additional attention resulting in a \$1.5 million change order. Additionally there was a change to the Flood Map which would mean a significant extension of the

walls to stay out of the enlarged floodway. He stated currently the contractor was working on replacing the loop ramps with fly over bridges. He stated both of the bridges over Garlington Road were originally thought to have new decks put on, but will be getting new structures resulting in a \$5.3 million change order. He provided the members with a website they could read further about the proposed rule and stated upon issuance of a Final Rule, GPATS would address how future expansions will occur.

Additionally, Mr. Brockington stated the response was in line in intent and verbiage with the SC DOT response.

He agreed with Mr. Carter as to being involved in the budget process in order to perhaps receive match dollars to be used to apply for grants on the Federal level.

### **NEW BUSINESS**

SCDOT Commissioner Davis spoke about roads in general. He stated no one likes additional taxes. He spoke about the presentation on US-25 up to North Carolina. He stated North Carolina's gas tax is over twice that of South Carolina's. It is in the 32 cent range and ours is sixteen cents. He stated when ours was set thirty years ago, the dollar produced then, produces forty seven cents today because of inflationary problems.

Commissioner Davis stated something had to be done to stabilize that and get a regular amount of dollars coming into DOT that can be depended on to have an inflationary change each year also. He stated these kinds of situations are tragic and terrible but basically boils down to a money situation of not having the dollars to do what we need to do.

SCDOT Commissioner Willard agreed with Commissioner Davis's comments. He stated one of the other challenges they will be facing is, not only here on the local level, but the CTC's is capacity issues. A lot has to do with labor, availability of truck drivers and equipment operators. He stated he was not sure what the answer is. DOT is talking about putting out over the next ten years 40 billion dollars' worth of work; the question will be can the industry handle it.

Senator Larry Martin thanked the Chairman for the great job he has done. He stated he thought progress was made regarding funding in the DOT, but more was needed. Long term he stated there was no question something has to be done. He stated it was going to take some courage on the votes that are in Columbia. It is going to take some courage to do the right thing, the next Governor is going to have to step up and do the right thing.

Commissioner Davis stated Senator Martin would be missed; he had been a real friend to the DOT. He stated it would take a long time to get the years of expertise and years of service. He saluted and thank Senator Martin for his service.

### **ADJOURNMENT**

    - c. **5.3**, CAT National Transit Database Profile, Reporting Year 2015GPATS will stay abreast of Federal Budget Amendments and will amend the TIP with the full 12/12<sup>th</sup> apportionments when they are made.
  - 2) Section 5310, Transit Funding for Elderly and Disabled Persons, is still available. If there is any interest in your area, please let GPATS know. Funding was left on the table, lapsed from FY2014, and GPATS is working to make sure the apportionments for FY2015 and onward are applied for and spent.
  - 3) Per SCDOT, the new 2017-2022 STIP will no longer include items from previous Fiscal Years. The GPATS TIP will still account for transit Fiscal Years that are still active, however they will be summarized in the TIP in a special column for FY2017, highlighted orange. GPATS will alter its new 2018-2023 TIP in June to account better for this requirement.

## MEMORANDUM

**TO:** GPATS Policy Committee

**FROM:** GPATS Staff

**DATE:** February 27, 2017

**SUBJECT:** GPATS Horizon2040 LRTP Update

---

The GPATS LRTP is proceeding on schedule!

Over the winter, GPATS Staff and Kimley-Horn and Associates have been hard at work with crunching the data gained from the public meetings, and starting to hold stakeholder meetings. Of note:

- A “State of the Region” report is in draft and is being reviewed by Kimley-Horn and Staff. It will be sent to the GPATS Study Team, Policy Committee, and Informational Attendees, as well as made publicly available, once it is finalized.
- KHA is getting close to having an initial travel model result for Base Year 2015
- The MetroQuest and statistically-valid survey results are being collated by KHA to inform the LRTP process. The MetroQuest survey will be online through the end of February, to capture any last-minute results.
- Stakeholder meetings have been held with many of the GPATS jurisdictions. If you still need to schedule your jurisdiction’s meeting with GPATS, please get with Staff ASAP. Additional meetings with major stakeholders such as major employers, advocacy groups, schools, hospitals, etc. will be held soon.
- Staff is compiling a list of members for Focus Groups, which will meet in a mini-charrette session with KHA in early March. If you have any citizens who would be valuable to the process, please let staff know ASAP.
- In April, KHA will be making a major Update Presentation to the GPATS Policy Committee, this will include Travel Model Results and recommended projects as heard from the public. The Focus Groups and Study Team will be instrumental in project ranking.
- The second round of public involvement will take place in late spring, to bring the LRTP results to the region.
- Adoption of the LRTP is on track for October.
