

Long Range Transportation Plan Survey

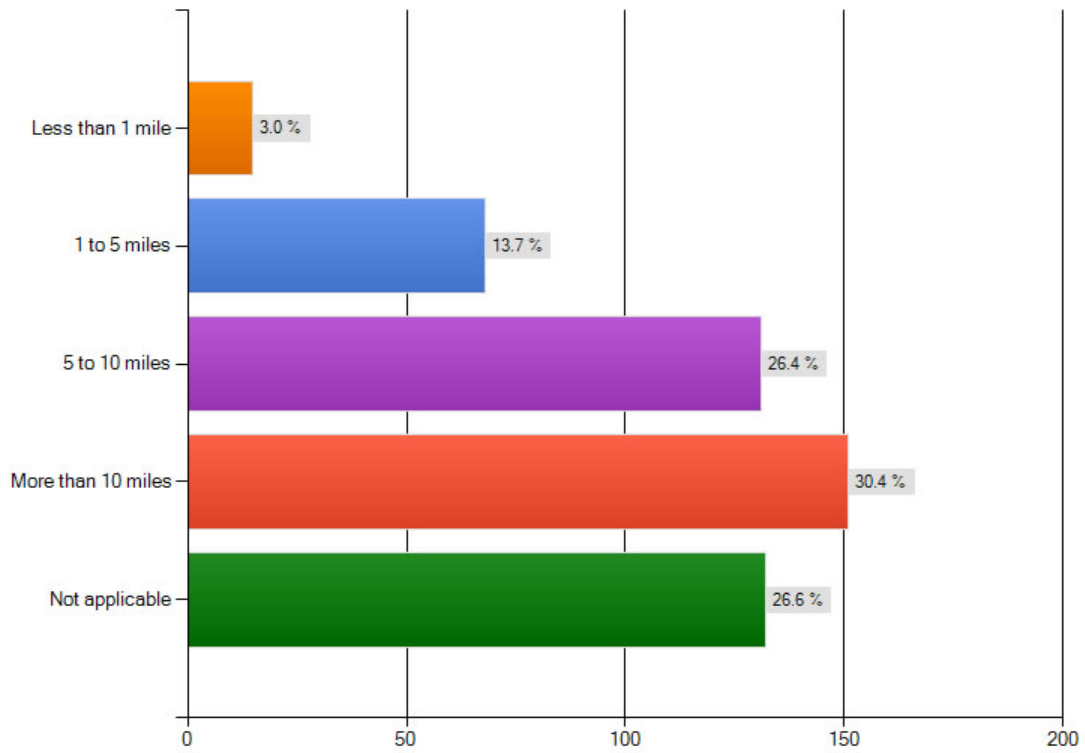

As part of the 2035 Long Range Transportation Plan update, GPATS staff developed a scientific mailed survey, which was sent to 2,000 randomly chosen households within the GPATS area. This survey was requested by the GPATS Policy Committee, and the number of surveys sent to each county was based on that county's proportion of the overall GPATS population. The number of surveys sent and response rates are shown below.

The results were used in the development of the plan update, and they also will serve as a baseline of information for the next Long Range Transportation Plan full update, which will be started in 2015. The survey used methodology based on *Survey Methodology*, 2nd Edition, Robert M. Groves, et al. Hoboken, New Jersey: John Wiley & Sons, 2009.

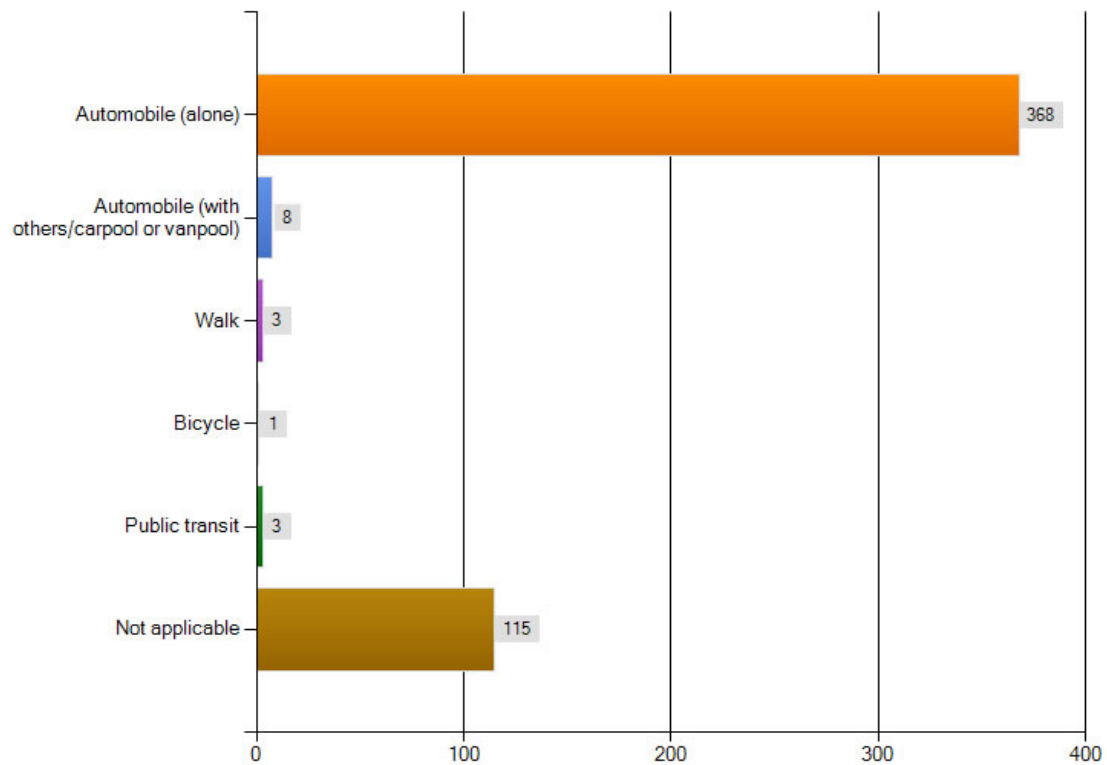

Surveys sent		
Greenville County	1571	
Pickens County	248	
Anderson County	91	
Spartanburg County	71	
Laurens County	19	
Surveys received		
Response rate		
Greenville County	456	29 percent
Pickens County	23	9 percent
Anderson County	18	20 percent
Spartanburg County	6	8 percent
Laurens County	2	11 percent

As shown in the table above, Greenville County and Anderson County had the highest response rates with 29 percent and 20 percent, respectively. The overall response rate for the survey was approximately 25 percent. On the following pages, you will find the tabulated responses to the survey questions. For additional information, contact GPATS staff at 467-7270.

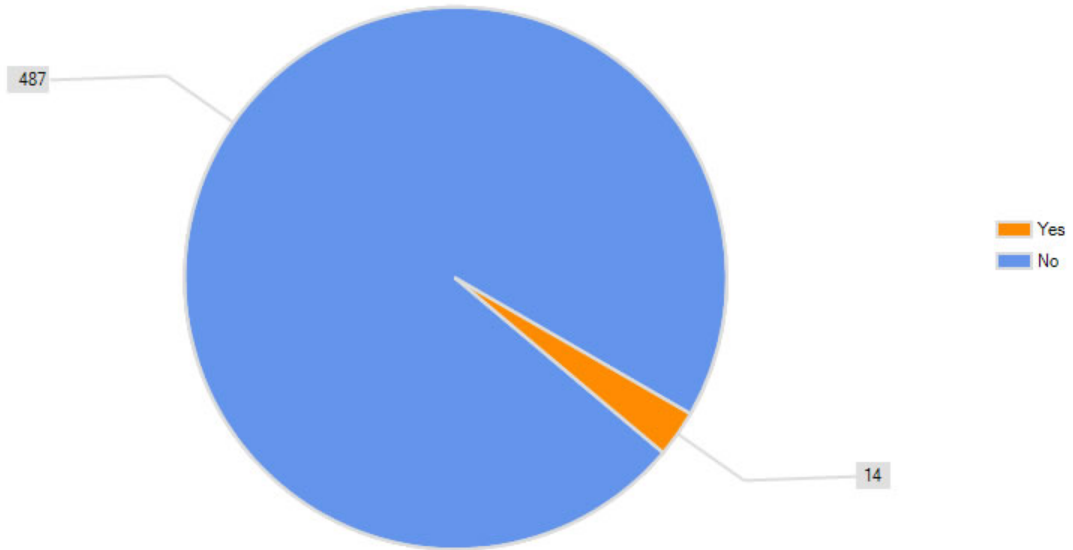

How far is your commute to work (if applicable)?

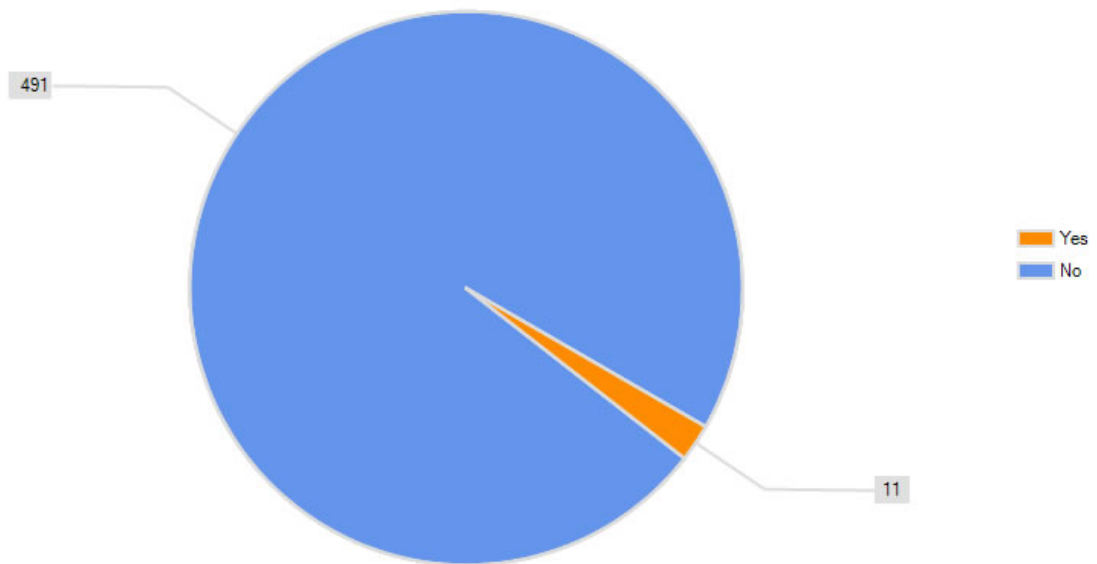

How do you typically commute to work?

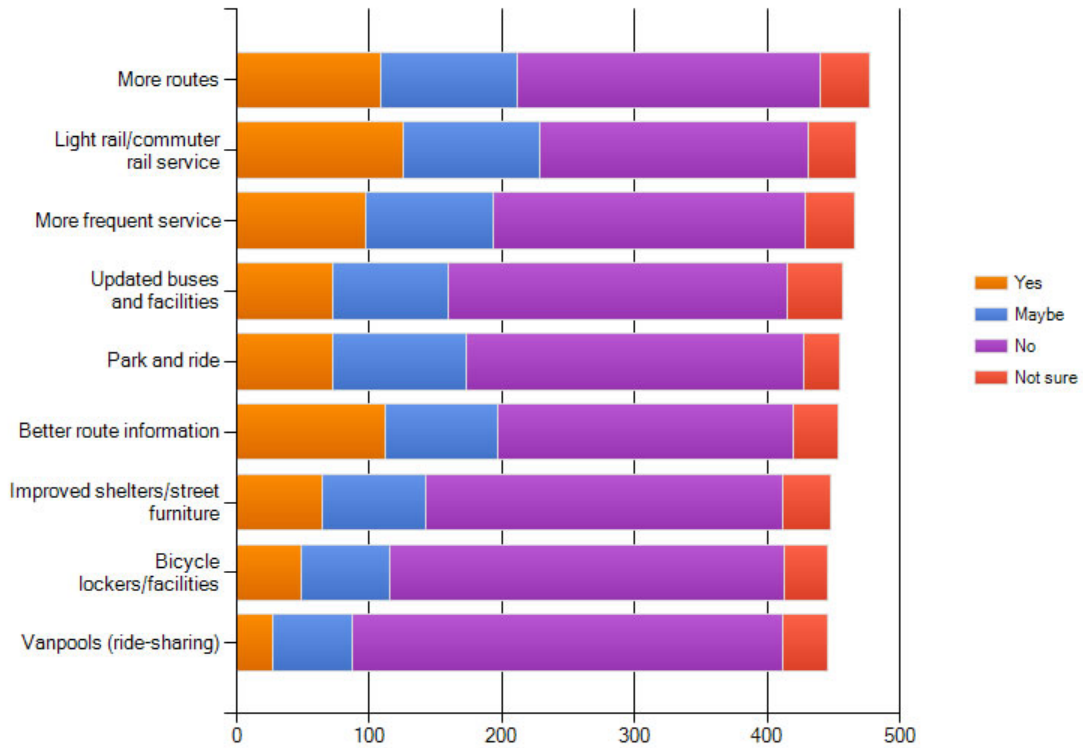

Does anyone in your household own a hybrid or electric vehicle?

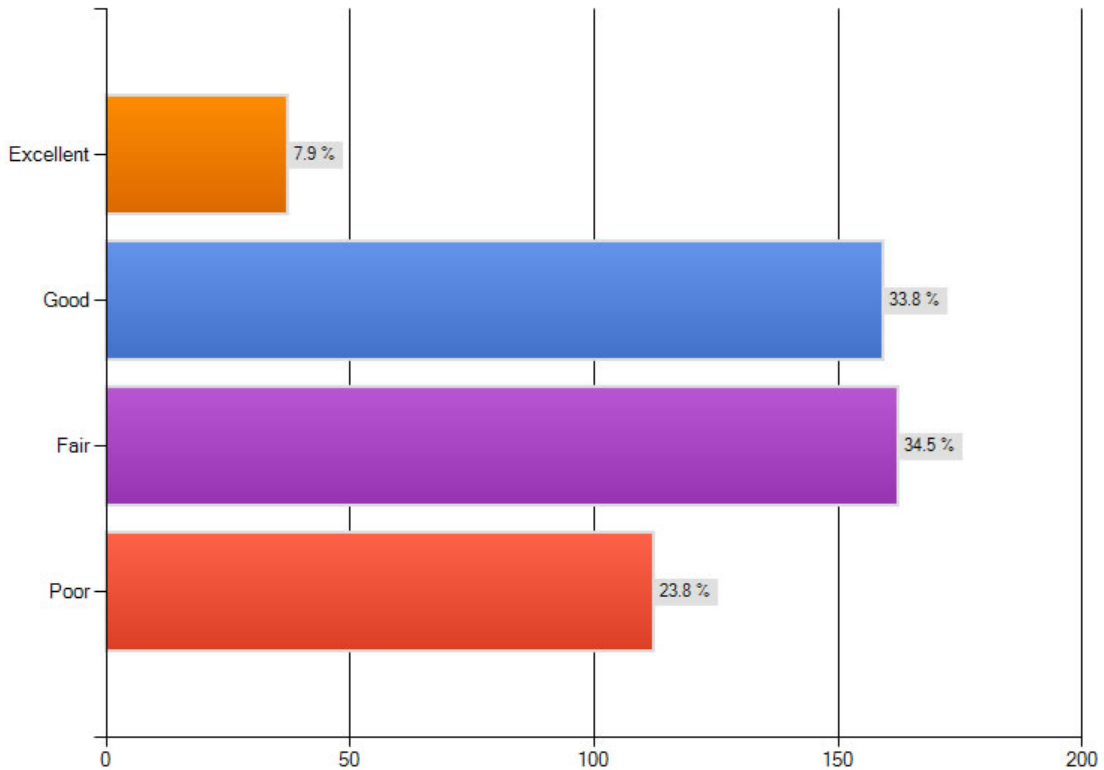

Do you use public transit (Greenlink buses) within the GPATS area?

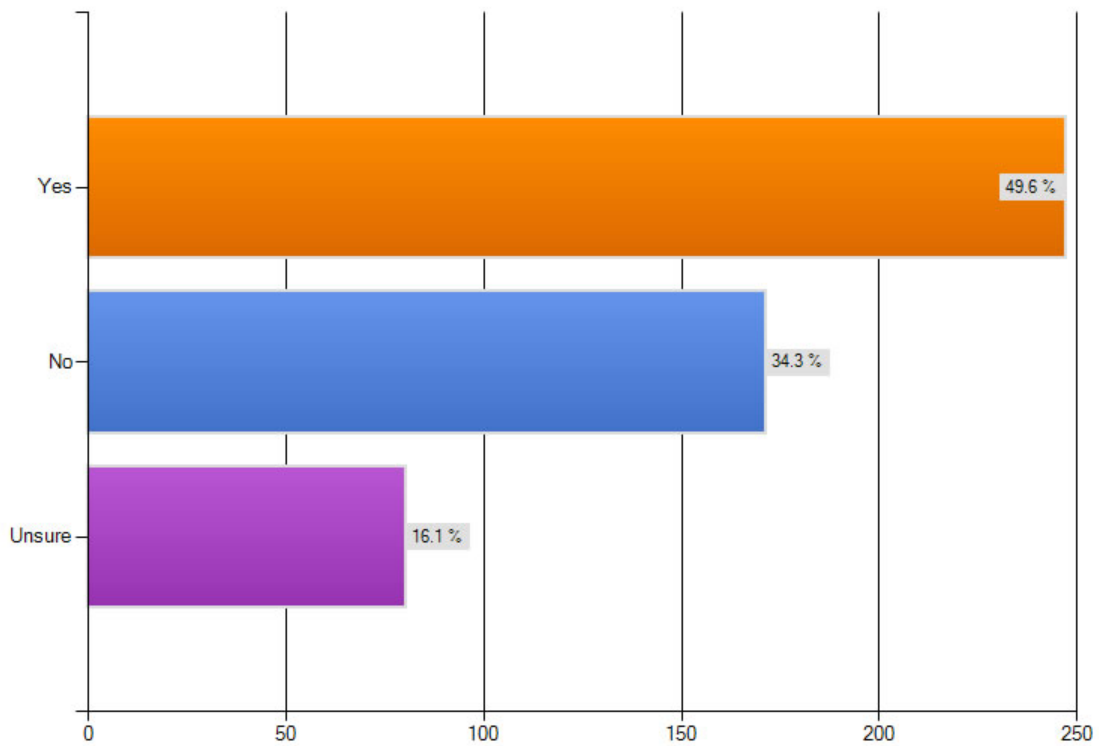

Would you be likely to increase your use of public transit if the following improvements were made?

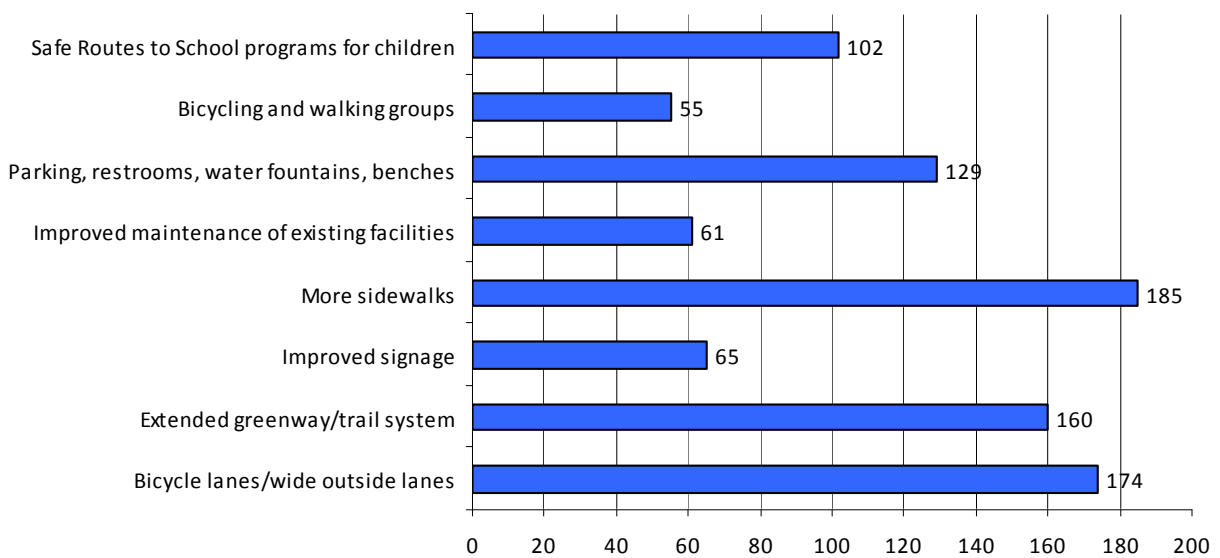

Overall, how would you rate the quality of the bicycle and pedestrian network?

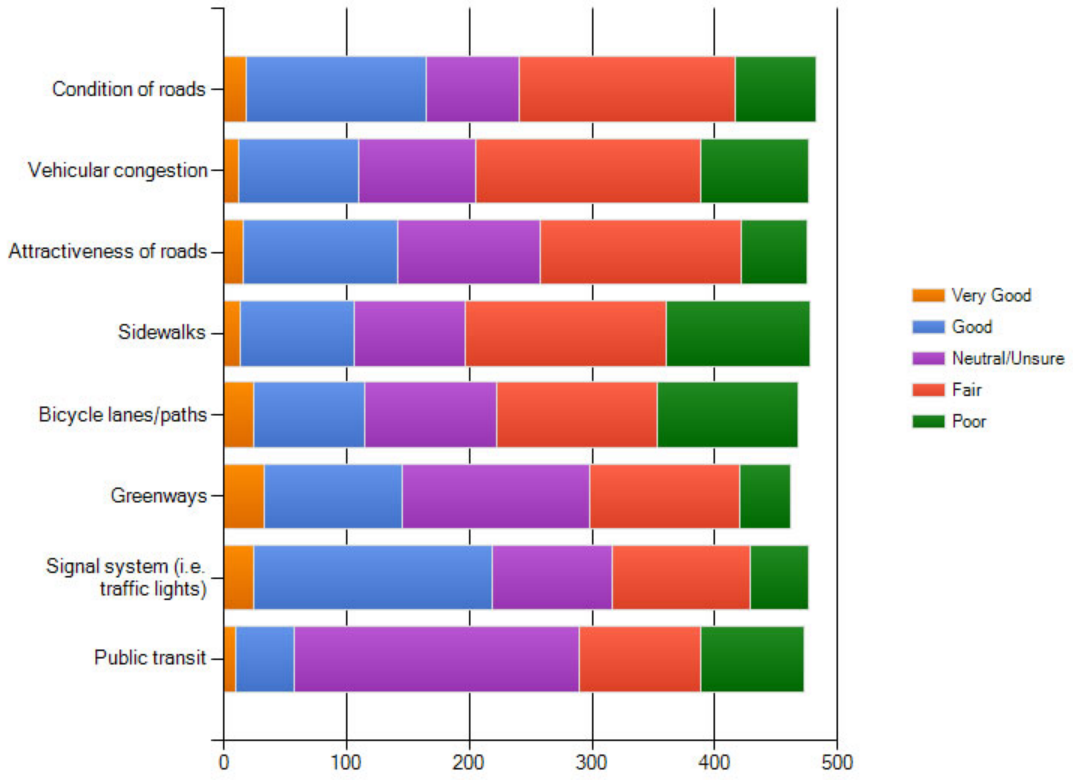

Would you bicycle and/or walk more if additional bicycle/pedestrian facilities were available?

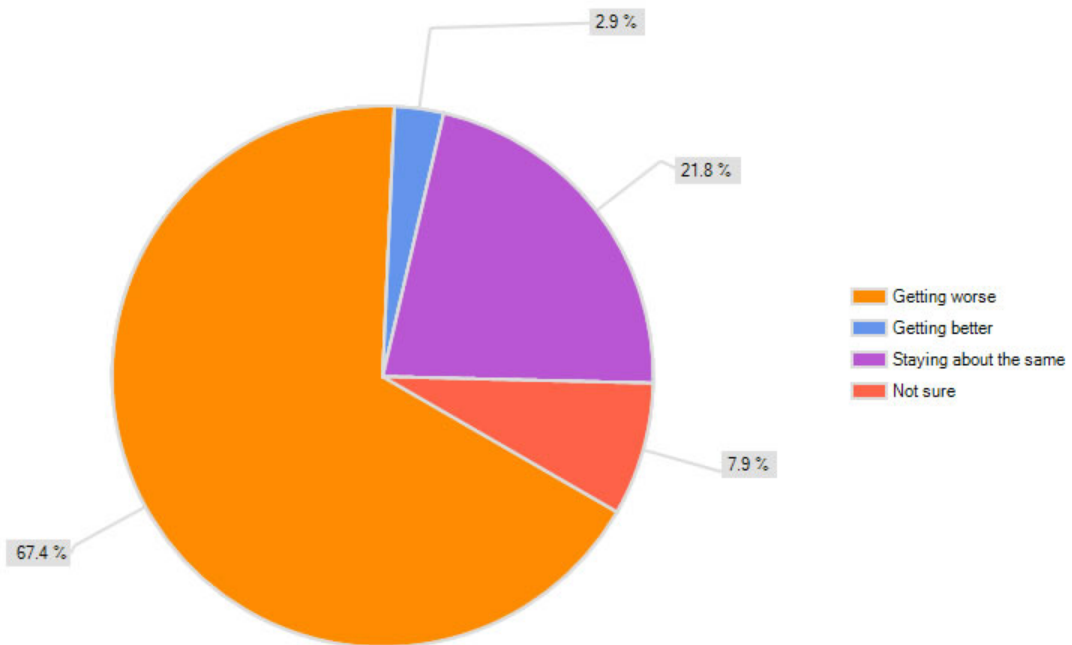

If you answered "Yes" above, which of the following would be helpful to you?

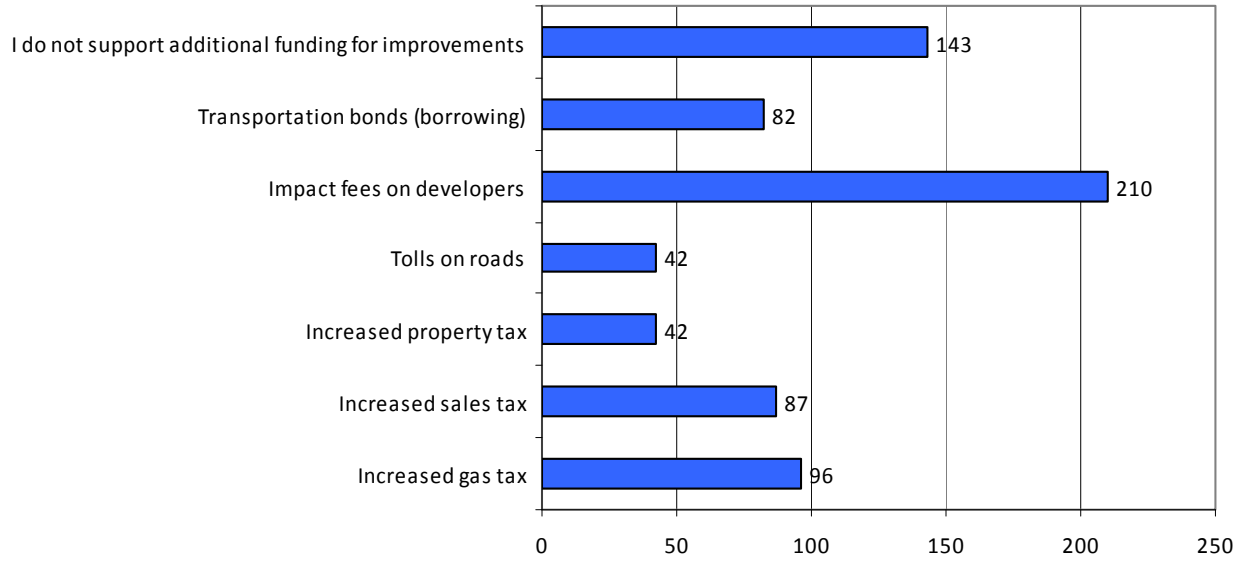

How would you rate the following in the GPATS area?

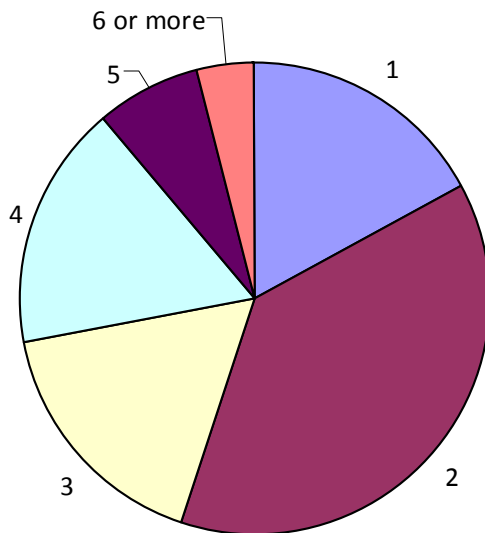

Do you feel traffic in the GPATS area is

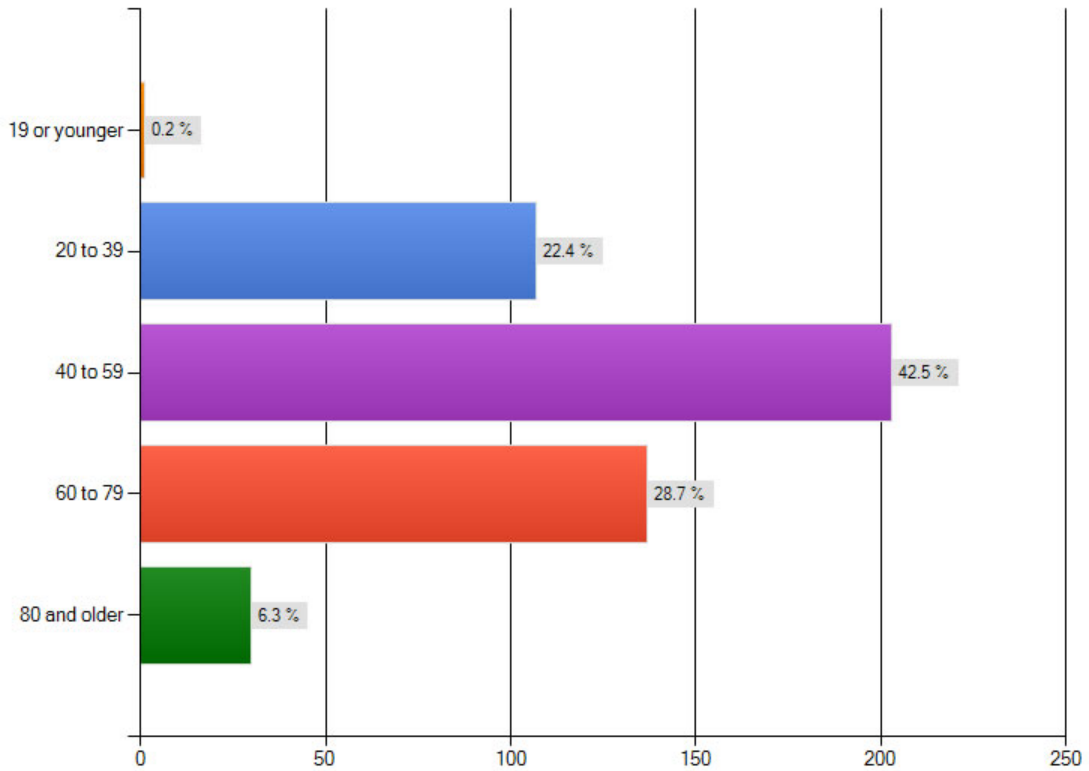

Which of the following sources would you support to fund transportation improvements?

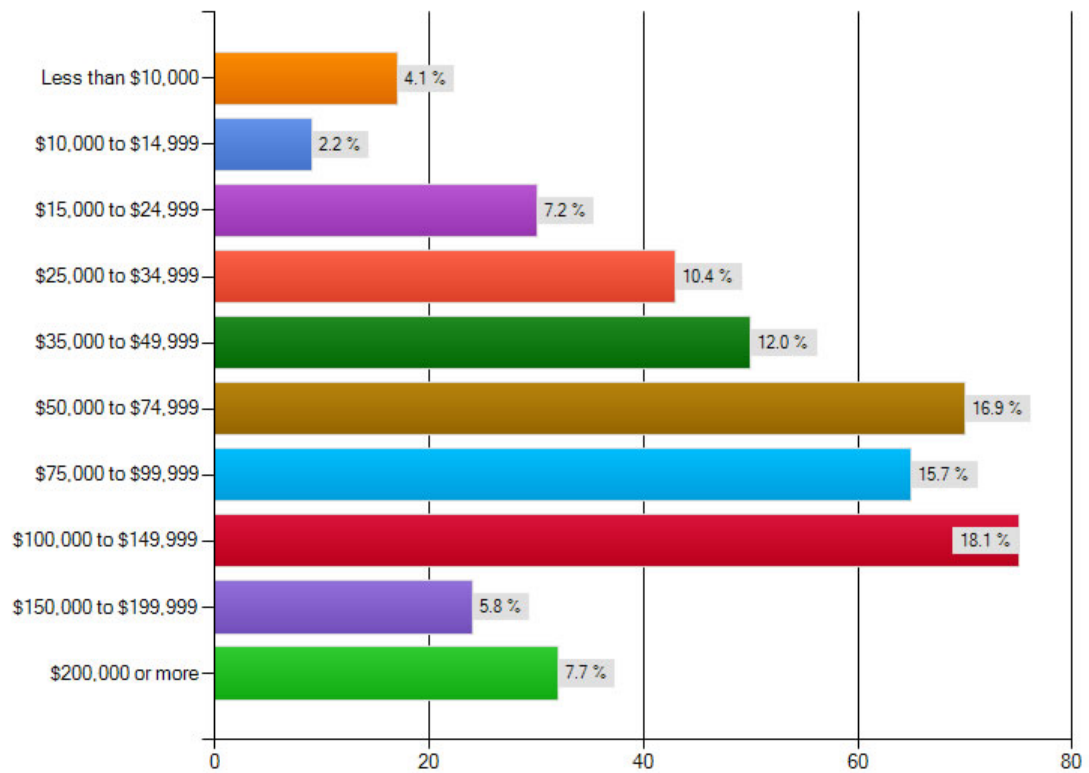

How many people live in your household?

Which of the following describes your age?

What is your annual household income?

What is your level of education?
